Rats with:	Control		50 ppm		150 ppm		450 ppm	
	D	T	D	T	D	T	D	T
Miscellaneous								
Leiomyoma (urinary bladder)			1					
Liposarcoma (thoracic)								1
Lipoma (ovarian adipose tissue)							1	
Fibrosarcoma (jejunum)				1				
Fibrosarcoma (abdominal)					1			
Total number of rats examined	46	14	44	16	47	13	41	19
Total numbers of rats bearing tumours	43	11	41	15	44	11	39	17
Total number of rats with malignant tumours	18	5	11	6	13	1	14	8

Key

W = Widespread

* = Metastasising

() = Multiple tumours of same type

(M) = Multiple tumours of same type

D = Rats killed or dying during the study

T = Rats killed at termination
