Re: Petroleum Additives Panel Health Environmental and Regulatory Task Group HPV Challenge
Final Submission for the Alkyl Sulfides Group 1

To Whom It May Concern:

On March 28, 2000, the American Chemistry Council, Petroleum Additives Panel, Health, Environmental and Regulatory Task Group (HERTG) submitted a test plan and supporting robust summaries for the following four chemicals in the alkyl sulfide category:

- 2-propanol, 1-(tert-dodecylthio) - (CAS # 67124-09-8, referred to in this report as propanol/dodecylthio derivative)
- 1-propene, 2-methyl-, sulfurized (CAS # 68511-50-2, referred to in this report as methyl propene derivative)
- Pentene, 2,4,4-trimethyl-, sulfurized (CAS # 68515-88-8, referred to in this report as trimethyl pentene derivative)
- Alkenes, C15-18 alpha-, sulfurized, (CAS # 67762-55-4, referred to in this report as C15-C18 alkene derivative).

The HERTG has completed the proposed testing described in the test plan for the alkyl sulfide category. Attached to this letter are the HERTG's final HPV submissions of the category analysis document and corresponding robust summaries which are submitted to fulfill the HERTG's HPV commitment for the alkyl sulfide category.

If you have any questions or comments, please contact me at (703) 741-5607 or via email at Sarah_McLallen@americanchemistry.com.

Sincerely yours,

Sarah Loftus McLallen
Manager, HERTG
