**Re: Submission of Test Plan and Robust Summaries for
Diallyldimethylammonium chloride, CAS RN 7398-69-8**

Dear Administrator Leavitt:

The DADMAC HPV Committee is pleased to submit the attached test plan and robust summaries for diallyldimethylammonium chloride (DADMAC), CAS RN 7398-69-8, for the US HPV Challenge Program, AR-201.

In addition, please take this opportunity to update the HPV Challenge Summary Report (<http://www.epa.gov/chemrtk/smrestbl.htm>) to reflect that the sponsor for this chemical is the **DADMAC HPV Committee**, rather than the North American Polyelectrolyte Producers Association (NAPPA) as is currently listed.

Please do not hesitate to contact me at 202-419-1500 or bobf@regnet.com if I can provide any further clarification.

Sincerely,

Robert J. Fensterheim
Executive Director
