RE: Final HPV Data Summary for Benzoyl Chloride, Consortium No.

Dear Administrator Johnson:

On December 23, 2003, the American Chemistry Council Benzoates Panel (Panel) submitted a Test Plan under the High Production Volume (HPV) Chemical Challenge Program for Benzoyl Chloride (CAS # 98-88-4). The Panel considered comments it received from EPA and other organizations during the public comment period that ended June 17, 2004.

With this letter, the Panel submits the Final HPV Data Summary for Benzoyl Chloride, including a IUCLID Data Set containing robust summaries. It is our understanding that EPA will post this document on its website identified as a "Final Submission."

With the submission of this report, the Panel has completed its commitment under the HPV Challenge Program for Benzoyl Chloride.

If you have any questions, please contact John Morris, Manager of the Benzoates Panel, at 703-741-5631 or john_morris@americanchemistry.com.

Sincerely yours
