| Term | Acronym | Vocabulary | Vocabulary Type | Preferred Term |
|---|---------|--|-------------------------------|----------------|
| Industries | | | | |
| Definition: The Agriculture, Forestry, Fishing and Hunting sector comprises establishments primarily engaged in growing crops, raising animals, harvesting timber, and harvesting fish and other animals from a farm, ranch, or their natural habitats. [NAICS] | | | | |
| Agriculture-related water reuse | | Regulations and End-Use Specifications Explorer Glossary | Glossary and Key Word List | |
| Definition: The use of recycled water for production of both crops for human consumption and non-food crops of commercial value. This reuse application excludes livestock watering, onsite non-potable reuse, and landscape irrigation. | | | | |
| Commercial Agriculture | | Hazard Ranking System Glossary | Glossary and Key Word List | |
| Definition: Production of crops for sale, including crops intended for widespread distribution (e.g., supermarkets) and more limited distribution (e.g., local produce stands), and any nonfood crops such as cotton and tobacco. Commercial agriculture does not include livestock production, livestock grazing, or crops grown for household consumption (e.g., backyard garden or fruit trees). | | | | |

| Raw Agriculture Commodity | RAC | Pesticides Reregistration Glossary | Glossary and Key Word List | |
| Sustainable Agriculture | | Pesticides Glossary | Glossary and Key Word List | |
| Definition: Environmentally friendly methods of farming that allow the production of crops or livestock without damage to the farm as an ecosystem, including effects on soil, water supplies, biodiversity, or other surrounding natural resources. The concept of sustainable agriculture is an "intergenerational" one in which we pass on a conserved or improved natural resource base instead of one which has been depleted or polluted. Terms often associated with farms or ranches that are self-sustaining include "low-input," organic, "ecological," "biodynamic," and "permaculture." | | | | |
